## BACKGROUND

During the 2002 legislative session, the Maryland General Assembly passed *House Bill 943, Chapter 252*. The bill requires the Criminal Justice Information System Central Repository (CJIS) to report information to the Maryland Justice Analysis Center on data pertaining to juveniles charged as adults in Maryland. More specifically, CJIS must report the gender, race, and age of each juvenile charged as an adult. By June 30 and December 31 of each year, the Maryland Justice Analysis Center shall report to the Governor, and, subject to § 2-1246 of the State Government Article, the General Assembly, on the results of its research, evaluation, and statistical analysis on this matter. In 2007, the Maryland Justice Analysis Center was relocated to the Governor's Office of Crime Control and Prevention and was renamed the Maryland Statistical Analysis Center (Center), which is responsible for completing these semi-annual reports.

## METHODOLOGY

The most recent report includes data received from CJIS on juveniles charged as adults in Maryland from January 1 – June 30, 2017.
